

GLENN LYVERS ABOUT PEYCHO KANEV'S POETRY

Bone Silence, by Peycho Kanev, is a constant reminder to us all that poetry usurps reality. Kanev takes readers in many directions, constantly returning the reader to the familiar. The various themes and symbolic repetitions of the works create a narrative larger than the individual pieces. Kanev draws us into his worlds, leaving us there to experience the familiarity of his voice, which seems to become our own. *Bone Silence* belongs in any serious collection of modern poetry today.
